

Talent for Technology

C++ Software Engineer (ES-3353)

We are searching for talented candidates on behalf of our multinational partner company working in the financial sector to fulfill the following position:

C++ Software Engineer

Junior and Senior level positions are available.

Responsibilities:

- Financial platform development and maintenance
- C++ software development for UNIX server

Requirements:

- Technically oriented, proactive, and enthusiastic, with extreme attention to detail
- Bachelor's in Computer Science, Mathematics, Physics or similar (masters/PhD is a plus)
- English written/verbal communication skills
- C++, Object Oriented Programming, Networking, STL
- Working, in-depth knowledge of data structures and algorithms
- If you're a high-energy, self-starting C++ software engineer, this is for you
- Strong mathematical skills

What they offer:

- Monthly public transport (BKV) tickets
- Daily lunch paid by the company
- Free coffee and beverages on-site
- Potential relocation to our US headquarters
- Yearly cash and stock bonus

Jelentkezés

Angol és magyar nyelvű szakmai önéletrajzát az it@exactsolutions.hu címre várjuk.
